

Train the Trainer Program

A short but very intense course which will provide information to help trainers develop into an excellent first aid trainer. Over the two days the course will look at different exciting ways to delivery first aid courses.

All delegates will use and practice with a range of visual aids and equipment, this will arm them with the knowledge and

allow them to develop there training skills.

•First Aid & Care Training
•Event Medical Cover
•Equipment Sales
08456 344 599

Who is this course for?

People who want to develop into a first aid trainer, all delegates must have experience of first aid, a current first aid at work certificate and a valid teaching qualification (see the PTC course information sheet). Each delegate will be able to deliver the following courses after completing the train the trainer program: -

- HSE First aid at work course
- HSE First aid at work refresher course
- Appointed Persons course
 - Paediatric first aid
 - Basic life support

What do you get for my money?

All delegates will receive a instructors manual, lessons plans, PowerPoint presentation which can be used when running there courses.

What's the outcome of the course?

All successful delegates will be awarded an instructors certificate, after passing a written and practical assessment.
